SECTION C - DESCRIPTION/SPECIFICATION /WORK STATEMENT

C.1 STATEMENT OF WORK

C.1.1 BACKGROUND

The U. S. Nuclear Regulatory Commission (NRC) Region V office is currently scheduled to relocate to new, expanded office space in the Walnut Creek, CA, area. Region V is currently leasing its telecommunications equipment from AT&T Information Systems. However, during the renovation, Region V will require an additional, interim switching system. Due to the lack of office space available during the renovation, an interim system which does not require on-premise equipment is required. The current system will support areas yet to be renovated, while the newly renovated space will be supported by the interim system.

C.1.2 OBJECTIVE

The objective of this contract is to provide interim uninterrupted telephone switching services during the scheduled office renovation/move. Due to NRC's mission requirements in support of public safety, continuous communications services shall be maintained.

C.1.3 SCOPE OF WORK

The Contractor shall provide Centrex services for 300 primary station lines as specified herein and in accordance with Pacific Bell's proposal attached hereto and made a part of this contract (Attachment 3). These services shall include dial tone, software features, and circuit installation, maintenance, moves and removals. These services are required to provide the NRC Region V offices with telephone switching services, connectivity to long distance and, through trunk group arrangements, the FTS 2000 network. Due to the critical nature of the NRC's mission, to support public health and safety, the telephone switching system shall be capable of providing the required redundancy to prevent communications and system downtime and/or interruptions. The Telephone switching services shall provide the capability of transmitting data and voice traffic over the Centrex lines provided by Pacific Bell. The Centrex service shall provide the following software features.

4

1. Automatic Callback
2. Call Forward Busy
3. Call Forward Don't Answer
4. Call Forward Variable
5. Call Hold
6. Group Call Pickup
7. Station Call Pickup
8. Call Transfer
9. Consultation Call Transfer
10. Distinctive Ringing and Call Waiting Tone
11. Touch Tone Service
12. Station Message Waiting
13. Standard Mailbox accessible by the station equipment for up to 100 users. The voice message system shall have the ability to record individual messages and change these messages from an individual station. The System shall have a tone identifier, when the receiver is removed from the cradle of the stations equipment, to alert the user of a message waiting to be retrieved.

The Centrex service shall be available 99.5% of the contract period. Any downtime needed to enhance the services provided by Centrex will be coordinated with the NRC Project Officer prior to the enhancement being installed.

The Contractor shall provide multiple-phased installation of Centrex numbers and services as ordered, in writing, by the NRC Project Officer.

(End of Clause)

5

SECTION D - PACKAGING AND MARKING

D.1 PACKAGING AND MARKING (MAR 1987)

The Contractor shall package material for shipment to the NRC in such a manner that will ensure acceptance by common carrier and safe delivery at destination. Containers and closures shall comply with the Interstate Commerce Commission Regulations, Uniform Freight Classification Rules, or regulations of other carriers as applicable to the mode of transportation. On the front of the package, the Contractor shall clearly identify the contract number under which the product is being provided.

(End of Clause)
