UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

DEC 28 1994

Ms. Trisha Dedik  
Director  
Export Control Operations Division  
Office of Arms Control and  
Nonproliferation  
U.S. Department of Energy  
Washington, DC 20585

Dear Ms. Dedik:

Enclosed is an application for an export license (XSNM02848), recently received by the Nuclear Regulatory Commission, for the export of high-enriched uranium, as oxide powder, for isotopic dilution analyses of absolute concentrations of uranium in rock and mineral samples for geochronological purposes to be conducted at the Istituto di Geocronologia e Geochimica Isotopica in Italy. This requested license is to replace export license XSNM02770, which was never used. Assurances from EURATOM are required that the material will be subject to all of the terms and conditions of an agreement for cooperation. Your assistance in obtaining the necessary assurances will be appreciated.

Sincerely,

Ronald D. Hauber, Director  
Division of Nonproliferation, Exports  
and Multilateral Relations  
Office of International Programs
