ATOMIC ENERGY COMMISSION  
WASHINGTON 25, D.C.

IN REPLY REFER TO:

40-959

LAR:ND

Magnesium Elektron, Inc.  
Rockefeller Center  
630 Fifth Avenue  
New York 20, New York

Attention: Mr. J. D. Fallon, Treasurer

Gentlemen:

Reference is made to your letter dated July 13, 1961, regarding renewal of Source Material License No. D-512.

Enclosed is a copy each of AEC regulations 10 CFR 20 and 10 CFR 40, entitled "Standards for Protection Against Radiation" and "Licensing of Source Material," respectively. Compliance with Part 20 is made a condition of all material licenses issued by the Commission. An application for a specific license should be submitted in quadruplicate on form AEC-2, copies of which are enclosed.

Please note Section 40.22(a)(4) of the regulation 10 CFR 40 which establishes a general license for the use and transfer of certain quantities of source material by certain categories of persons provided they do not use and transfer more than 15 pounds of source material at any one time and provided they do not receive more than 150 pounds during a single calendar year pursuant to this general license. As provided by Section 40.20, a general license is effective without the filing of an application with the Commission or the issuance of licensing documents to particular persons. If your proposed requirements and use of source material are within the purview of the general license provisions, you would not require a specific AEC license for possession and use of source material.

IN REPLY REFER TO:

SOURCE MATERIAL LICENSE

License No. L-512

Dated:

Magnesium Elektron, Inc.  
 130 Fifth Avenue  
 New York 20, N. Y.

Attention: Mr. J. G. Fallon

Gentlemen:

Pursuant to the Atomic Energy Act of 1954 and Section 40.21 of the Code of Federal Regulations, Title 10 - Atomic Energy, Chapter 1, Part 40 - Control of Source Material, you are hereby licensed to receive possession of and title to magnesium alloy ingots containing up to 40% thorium through import from England for resale and storage at your warehouse located at 29-51 Ravonia Avenue, Jersey City, N. J. This license does not authorize your processing of this material in any manner.

You are further licensed to transfer and deliver possession of and title to refined source material to any person licensed by the Atomic Energy Commission, within the limits of his license.

As a condition of this license, you are required to maintain records of your inventories, receipts and transfers of refined source material.

This license is subject to all the provisions of the Atomic Energy Act of 1954 now or hereafter in effect and to all valid rules and regulations of the U. S. Atomic Energy Commission, including 10 CFR 20, "Standards For Protection Against Radiation."

Neither this license nor any right under this license shall be assigned or otherwise transferred in violation of the provisions of the Atomic Energy Act of 1954.

This license shall expire **July 31, 1961.**
