Dear Senator Bentsen:

Enclosed are copies of correspondence with the NRC concerning their new rule changes and fee changes, which drastically threaten the future of licensees such as myself.

Inasmuch as the NRC maintains that Congress is responsible for the laws requiring them to be self-sufficient, I solicit your assistance, as I am a small business person who is being priced out of business. Please refer to my enclosed letter to the NRC illustrating that this single company, which I manage, contributes approximately \$953,273.00 in salaries annually. The closing of this company could possibly force the wage earners to unemployment, which would be of greater expense to our government.

I would appreciate any assistance that you can offer in eliminating this monetary burden being imposed upon the small business NRC licensee.

Respectfully,

Harry W. Gibson  
Chairman of the Board
