JUN 19 1991

Docket No. 50-456  
Docket No. 50-457

Commonwealth Edison Company  
ATTN: Mr. Cordell Reed  
Senior Vice President  
Opus West III  
1400 Opus Place  
Downers Grove, IL 60515

Dear Mr. Reed:

NRC Region III has received the enclosed Federal Emergency Management Agency (FEMA) letter dated June 5, 1991, and the enclosed final exercise evaluation report for the offsite portion of the Braidwood Station's 1990 emergency preparedness exercise. Offsite participation involved only Kankakee County. The State of Illinois, Will County and Grundy County were exempted from exercise participation due to their response to a recent natural disaster.

Based on the performance of Kankakee County agencies during the exercise and the fact that the exempted organizations had successfully participated in the 1990 exercises, FEMA has advised NRC that offsite radiological emergency response plans and preparedness for the Braidwood Station are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect public health and safety.

You are requested to followup with offsite officials on the status of any outstanding items identified by FEMA.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC's Public Document Room.

Sincerely,

L. Robert Greger, Chief  
Reactor Programs Branch
