Division of Radiation
U.S. Nuclear Regulatory Commission
Region 1
47 Allendale Road
King of Prussia, PA 19406

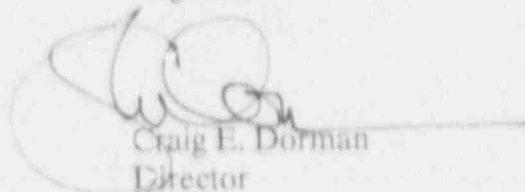

Dear Mr. Knapp:

Attached to this letter is correspondence from William E. McKeon from my staff. The information contained was developed with the Isotope Users Committee and the Radiation Safety Officer, Mr. Eric Spencer to address the violations cited in your letter of 3 July 1991.

I assure you I take our Notice most seriously, have reviewed, and am in full agreement with the response submitted by Mr. McKeon. The procedural aspects of our operation must be equal in quality to the science we conduct; we are committed to maintaining excellence in all we do.

I believe the actions noted strengthen our radiation safety program and will continue to insure safe use of radionuclides without incident.

Regards,

Craig E. Dorman
Director
