

UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKET NO. 50-374COMMONWEALTH EDISON COMPANYNOTICE OF ISSUANCE OF FACILITY OPERATING LICENSE

Notice is hereby given that the U. S. Nuclear Regulatory Commission (the Commission), has issued Facility Operating License No. NPF-18, to Commonwealth Edison Company (the licensee) which authorizes operation of the La Salle County Station, Unit 2 (the facility), by Commonwealth Edison Company at reactor core power levels not in excess of 3323 megawatts thermal (100 percent power) in accordance with the provisions of the license, the Technical Specifications and the Environmental Protection Plan. However, the license contains a condition currently limiting operation to 5 percent of full power (166 megawatts thermal). Authorization to operate beyond 5 percent of full power will require specific Commission approval.

La Salle County Station, Unit 2, is a boiling water nuclear reactor located at the licensee's site in Brookfield Township, La Salle County, Illinois approximately 65 miles southwest of Chicago, Illinois. The license is effective as of the date of issuance.

The application for the license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license. Prior public notice of the overall action involving the proposed issuance of an operating license was published in the Federal Register on June 9, 1977 (42 F.R. 29576-29577).

The Commission has determined that the issuance of this license will not result in any environmental impacts other than those evaluated in the Final Environmental Statement and its Addendum since the activity authorized by the license is encompassed by the overall action evaluated in the Final Environmental Statement and its Addendum.

For further details with respect to this action, see (1) Facility Operating License No. NPF-18, complete with Technical Specifications and Environmental Protection Plan; (2) the report of the Advisory Committee on Reactor Safeguards dated April 16, 1981; (3) the Commission's Safety Evaluation Report dated March 1981, Supplement No. 1 dated June 1981, Supplement No. 2 dated February 1982, Supplement No. 3 dated April 1982, Supplement No. 4 dated July 1982, Supplement No. 5 dated August 1983, Supplement No. 6 dated November 1983, and Supplement No. 7 dated December 1983; (4) the Final Safety Analysis Report and amendments thereto; (5) the Environmental Report and supplements thereto; (6) the Final Environmental Statement dated November 1978 and the Addendum to the Final Environmental Statement dated May 1981; and (7) NRC Flood Plain Review of La Salle Nuclear Plant Site dated January 29, 1981.

These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, DC 20555, and the Public Library of Illinois Valley Community College, Rural Route No. 1, Oglesby, Illinois 61348. A copy of Facility Operating License No. NPF-18 may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Director, Division of Licensing. Copies of the Safety Evaluation Report and its Supplements 1, 2, 3, 4, 5, 6 and 7 (NUREG-0519) may be purchased at current rates from the National Technical Information Service, Department of

merce, 5285 Port Royal Road, Springfield, Virginia 22161, and through the NRC GPO sales program by writing to the U. S. Nuclear Regulatory Commission, Attention: Sales Manager, Washington, DC 20555. GPO deposit account holders can call (301) 492-9530.

Dated at Bethesda, Maryland, this 16th day of December 1983.
