### NPDES Monthly Reports

Gentlemen:

This letter forwards copies of our NPDES Monthly Reports as submitted to the Pennsylvania Department of Environmental Resources, Bureau of Water Quality Management.

The addresses for our new NPDES permits should be changed as indicated on the sheets attached to each permit.

On the new Discharge Monitoring Report for Elrama Power Station, Permit No. PA 0001571, the parameter "Oil and Grease" is listed as a requirement. This parameter should be removed from the DMR because it is not required by our permit and we have not reported it in the past.

Very truly yours,

C. Feitknecht  
General Superintendent  
Fossil Power Generation
