Uranium Process Licensing Section
Uranium Fuel Licensing Branch

Subject: SNM-1107, Docket 70-1151 License Renewal Application

Gentlemen:

This letter refers to a recent meeting between Mr. C. F. Sanders and members of your staff concerning the submittal of occupational exposure information and ALARA data in support of a license renewal application to be submitted in 1983.

Attached for your review is a copy of the Columbia Plant ALARA Report for the six month period ending June 30, 1982. This report is published semi-annually to summarize ALARA information for plant management.

We propose to submit the most recent version of the Columbia Plant ALARA Report as an attachment to the SNM-1107 license renewal application to demonstrate compliance with the ALARA philosophy. Please review and advise us if additional information is required.

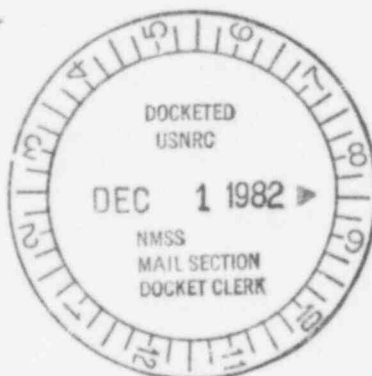

Very truly yours,

WESTINGHOUSE ELECTRIC CORPORATION

Edward Reich
