Addendum 1 begins with a brief introductory summary followed by a table (Table 1) summarizing the changes. This is followed by the changed pages themselves, organized by chapter. As explained in the introduction, the changed pages for all affected chapters, except Instrumentation (Chapter 3.3), can be substituted directly for the existing pages in WCAP-13029. A diskette containing the WordPerfect files of the reorganized specifications and Bases has been provided with this transmittal.

These changes to WOG comments on NUREG-1431 Standard Technical Specifications, Westinghouse Plants are enclosed for your review and acceptance.

Very truly yours,
