Re: application XSNM-2097

Dear Mrs. Raymond:

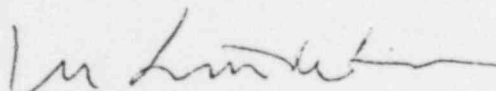

Referring to your letter of December 13, 1983 regarding an application from Exxon Nuclear Company, Inc. for a license to export 30,440 kg U containing 996 kg U-235, I am in a position to confirm the following:

The material, as identified in the application, will be subject to all of the terms and conditions of the Agreement of Cooperation between Sweden and the United States concerning the civil uses of atomic energy, which entered into force on September 15, 1966.

The consignee, identified in the application, Oskarshamnsverkets Kraftgrupp AB, is authorized to receive and possess the material.

I would appreciate receiving a copy of the export license when it has been approved.

Sincerely,

Mikael Lindström
First Secretary of Embassy
