Velsicol Chemical Corporation
ATTN: Mr. John W. Rademacher
Vice President, Environmental
Health and Regulatory Affairs
341 East Ohio Street
Chicago, IL 60611

Gentlemen:

This is to confirm the telephone conversation between your Mr. N. R. Netzel and W. T. Crow of my staff on June 1, 1983 regarding the Velsicol Chemical Corporation site in St. Louis, Michigan. We have evaluated the radioactive contamination at this site and find that the implementation of the site stabilization plan imposed by the Consent Judgement filed December 27, 1982 (Civil Action No. 82-10303) is adequate to protect the public and the environment from the radioactive contaminants. Also, the proposed Granite Marker Legend and the land use restrictions submitted in your letter dated September 29, 1982, are acceptable.

Enclosed for your information is a copy of our evaluation.

Sincerely,

R. G. Page, Chief
Uranium Fuel Licensing Branch
Division of Fuel Cycle and
Material Safety, NMSS

Enclosure: As stated
