Dear Mr. Withers:

SUBJECT: NUREG-0737, ITEM II.B.3, POST-ACCIDENT SAMPLING SYSTEM
(PASS) TROJAN NUCLEAR PLANT

We have completed our review of your letters of November 16 and December 22, 1983 regarding the above subject. Our evaluation is enclosed. This supplements our previous evaluation of August 15, 1983.

Based on our evaluation, we find that all of the eleven review criteria of II.B.3. are now fully satisfied. This completes NUREG-0737 item II.B.3 for the Trojan plant except for matter of technical specifications which is being handled separately (Generic Letter 83-37 of November 1, 1983).

Sincerely,

Original signed by:

James R. Miller, Chief
