Dear Mr. Rawl:

By application dated February 27, 1983, Automation Industries, Inc. requested that the Model No. 500SU-CP package design be issued an IAEA Certificate of Competent Authority as a Type B(U) package (1973 Revised Edition, As Amended).

Based upon our review of the application, we have concluded that the packages authorized by NRC Certificate of Compliance No. 9180 meet the requirements for Type B(U) packages except the approval should be conditioned to require a serially numbered lead wire seal(s) in combination with the closure mechanism(s) which, while intact, will be evidence that the package has not been illicitly opened.

Sincerely,

Original Signed by
CHARLES E. MACDONALD

Charles E. MacDonald, Chief
