Gentlemen:

This refers to the meeting conducted by Messrs. J. Harrison, R. Cook, R. Gardner, B. Burgess, and R. Landsman of the NRC Region III staff with Messrs. S. Lucks, P. Amoruso, and others of Stone and Webster (S&W), and Messrs. D. Quamme, J. Mooney, R. Wells, and others of your staff on January 12, 1984, to discuss the Remedial Soils and Construction Completion Program (CCP) independent third party assessment/overview activities. This monthly meeting was conducted as required by and in accordance with the protocol established with Consumers Power Company for the Stone and Webster activities as related to the Midland Nuclear Project.

The enclosed copy of our report together with the attached Stone and Webster weekly reports and the meeting minutes, identify topics discussed during the meeting. The previous month's (December 1983) activities were specifically reviewed. This was accomplished by a Stone and Webster presentation of the Remedial Soils and CIO areas which highlighted work and quality activities, problems encountered, observations made, reporting of nonconformances and resolutions for those nonconformances. Following the presentations was a question and answer session between the NRC, Stone and Webster and Consumers Power Company. This meeting was open to members of the public.
