Attn: Document Control Desk

Subject: Quad Cities Power Station Units 1 and 2;
NRC Docket Number 50-254 and 50-265;
NRC Generic Letter 94-02 "Long-Term Solutions And Upgrade Of Interim
Operating Recommendations For Thermal-Hydraulic Instabilities In Boiling
Water Reactors"
Interim Corrective Actions Response

Reference: ComEd Letter dated September 9, 1994; from J.C. Brons, Vice President Nuclear
Services to Wm. T. Russell, Director, Office of Nuclear Reactor Regulation,
transmitting the Dresden, La Salle and Quad Cities Stations response to GL 94-
02.

Commonwealth Edison's revision to the response to the Generic Letter (GL) transmitted with the
referenced letter is as follows:

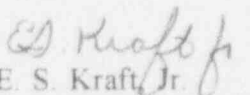

In the response for the Generic Letter, the following commitment was made:

- 1) The Training Department ... "will provide the training for the licensed operators in Session
94-7, to begin 11/7/94 and end on 12/16/94."

**The station is revising the above commitment to end 1/15/95 to allow for the completion of the
necessary training by the Station Training Department.**

If there are any questions or comments concerning this letter, please refer them to Mervin Miller,
Regulatory Assurance at (319) 654-2241, extension 3107.

Respectfully,

E. S. Kraft, Jr.
Site Vice President
