SUBJECT: Kewaunee Nuclear Power Plant Exercise Report

Attached is the exercise report for the Kewaunee Nuclear Power Plant which was conducted on November 1, 1983.

The exercise was evaluated under the procedural policy outlined in the August 4, 1983 memo. The recent developed modular exercit was used during the evaluation process. The exercise objectives listed in the report differ slightly in Tab M of the modular format because the State had developed and submitted the ~~off-site~~ ^{objectives} prior to August 5th guidance being received.

The date for a schedule of corrective action must be established following your approval of the report and when the final copy is sent to the State.
