DOCKET NUMBER 50-275-323
PROD. & UTIL. FAC.

Honorable Commissioners,

On March 26th local residents of San Luis Obispo gathered in a march through the city to demonstrate their opposition to the licensing and operation of the nuclear power plant being built by Pacific Gas and Electric Company at Diablo Canyon.

We believe that the only way the residents of San Luis Obispo can feel assured of their safety will be for the plant to never operate.

We submit this petition, to become part of your permanent record, as further evidence of sincere local opposition to the licensing and operation of the Diablo Canyon nuclear power plant. We request that you give these signatures due consideration.

Thank You

People Generating Energy

& the Citizens of San Luis Obispo

The petition is on file in the Office of the Secretary.
