SUBJECT

Submission of 12/9/82 on Control No 12662

ROUTING

NAME/SYMBOL

INT

SUMMARY

1) Under 49CFR 173.393(N) and 173.397, shipper is required to wipe test pkg. Either add instructions to the source return kit or get a written determination of exemption from D.O.T.

2) Re #3 in ltr dtd 12/9/82, where are ^{instructions to} ~~discussions for~~ safely store and secure source if the rest of the instrument is sent back for repair?

3) Information about the exposure control mechanism mentioned in McDuffy's ltr of 12/14/82 should be added to the instruction manual. Relate 10 sec to corresponding dose.

4) Re instrument diagram at the back of the instruction manual: "On Indicator" (11/6/82 version) seems more descriptive than "Warning Flag" (12/9/82 version)
