

AUG 25 1983

DMB-016

Dockets Nos. 50-277  
and 50-278

Mr. Edward G. Bauer, Jr.  
Vice President and General Counsel  
Philadelphia Electric Company  
2301 Market Street  
Philadelphia, Pennsylvania 19101

Dear Mr. Bauer:

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION REGARDING REVISED  
TECHNICAL SPECIFICATIONS FOR SNUBBERS

Re: Peach Bottom Atomic Power Station, Units 2 and 3

Our contractor, Lawrence Livermore National Laboratory (LLNL), and NRC Region I staff members have reviewed your submittals regarding proposed Technical Specifications (TSs) for snubbers dated March 24, 1981, as supplemented by letters dated August 6, 1981, December 13, 1982 and June 22, 1983. The preliminary review identified several deviations between your proposed TSs and the NRC's STS requirements for snubbers. These deviations and actions needed to be taken for resolution were discussed during a meeting at your office on June 21, 1983, as described in the enclosed LLNL Technical Evaluation Report.

Please submit, within 30 days of your receipt of this letter, revised proposed TSs for snubbers that are consistent with the NRC's STS requirements or additional justification for any remaining deviations from the STS.

This request for information affects fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

"ORIGINAL SIGNED BY:"

Gerald E. Gears, Project Manager  
Operating Reactors Branch #4  
Division of Licensing
