SUBJECT: REPORT NO. 50-395/94-24

Thank you for your response of December 16, 1994, to our Notice of Violation issued on November 18, 1994, concerning activities conducted at your V. C. Summer facility. We have evaluated your response and were initially concerned with your statement that the programs for cleanliness control in effect at V. C. Summer are adequate to preclude further violations. Since the violation dealt with inadequate cleanliness control instructions, it was unclear how the existing program control would preclude further violations.

During subsequent conversations, Mr. Robert Haag of my staff was informed by members of your staff that following the violation the level of attention and awareness to cleanliness controls was increased for plant personnel. In addition, your staff stated that future training of cleanliness control practices will include lessons learned from this violation.

Based on these additional factors, your proposed actions to avoid further violations appear to be adequate. We will examine the implementation of your corrective action during future inspections.

We appreciate your cooperation in this matter.

Sincerely,
