SUBJECT: REQUEST FOR RELIEF FOR RESIDUAL HEAT REMOVAL SERVICE WATER SYSTEM -
QUAD CITIES NUCLEAR POWER STATION, UNITS 1 AND 2 (TAC NOS. M88687
AND M88688)

Dear Mr. Farrar:

This is in response to your request of January 11, 1994, as supplemented on
May 23, 1994, regarding the subject relief request.

Localized Residual Heat Removal Service Water (RHRSW) piping wall loss was
discovered on Unit 1. After several teleconferences, the licensee submitted a
relief request to defer repair of this piping until the next refueling outage
(scheduled to start March 13, 1994) when the piping would be replaced.
Further investigation revealed no similar condition in Unit 2 piping.

Your letter of November 3, 1994, confirmed that the piping elbows that were
the subject of the relief request were replaced in refueling outage Q1R13.
Code relief, therefore, is no longer required. This letter closes TAC Nos.
M88687 and M88688.

Sincerely,

original signed by:

Robert M. Pulsifer, Project Manager
Project Directorate III-2
Division of Reactor Projects - III/IV
Office of Nuclear Reactor Regulation
