Texas Utilities Generating Company
ATTN: R. J. Gary, Executive Vice
President & General Manager
2001 Bryan Tower
Dallas, Texas 75201

Gentlemen:

This refers to the inspection conducted under Resident Inspection Program by Mr. D. L. Kelley during the period October 1-November 30, 1983, of activities authorized by NRC Construction Permit CPPR-126 for the Comanche Peak facility, Unit 1, and to the discussion of our findings with Messrs. J. T. Merritt, J. C. Kuydendall, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included Initial Startup Procedures, Preoperational Test Performance, Re-evaluation of Preoperational Test Results, Plant Tours, and Plant Status. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter, and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
