MEMORANDUM FOR: L. J. Dimmock, Reactor Engineer, Operator Licensing Section  
FROM: James G. Keppler, Regional Administrator  
SUBJECT: EXEMPTION TO 10 CFR 0.735-21

This memorandum is in response to your June 6, 1983 request for an exemption from the provisions of 10 CFR Section 0.735-21 with respect to your vested pension from Commonwealth Edison Company.

A review of the terms of the pension plan by the Office of General Counsel has revealed that as an NRC employee you cannot influence, in any fashion, the amount you will receive as pension from Commonwealth Edison. Based upon this finding, I have determined that your interest in the pension plan is not so substantial as to be deemed likely to affect the integrity of your service to the NRC and that no provision of law and no NRC regulation would appear to be violated by your participation in matters affecting Commonwealth Edison.

Therefore, with the concurrence of the Office of General Counsel, you are hereby granted an exemption from the requirements of 10 CFR 0.735-21 and you may participate in matters before the NRC affecting Commonwealth Edison.
