FEB 03 1984

Mississippi Power and Light Company
ATTN: Mr. J. B. Richard
Senior Vice President, Nuclear
P. O. Box 1640
Jackson, MS 39205

Gentlemen:

SUBJECT: MEETING SUMMARY - DOCKET NO. 50-416

This refers to the meeting, conducted at your request, in the Region II office on January 27, 1984. This meeting was held to discuss a proposed 10 CFR 50.54(p) change to the Grand Gulf Physical Security Plan.

It is our opinion that this meeting was beneficial and has provided a better understanding of the forthcoming plan changes.

In accordance with Section 2.790 of NRC's "Rules of Practice," Title 10, Code of Federal Regulations, a copy of this letter will be placed in the NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them.

Sincerely,

Richard C. Lewis, Director
Division of Project and
Resident Programs

MEETING SUMMARY

Licensee: Mississippi Power and Light Company
Facility: Grand Gulf
License: NPF-13
SUBJECT: PROPOSED REVISIONS TO THE PHYSICAL SECURITY PLAN

On January 27, 1984, members of the NRC Region II staff and representatives of Mississippi Power and Light Company (MP&L) met to discuss proposed changes to the Grand Gulf Physical Security Plan. The licensee was advised that the majority of the changes appeared to be consistent with the provisions of 10 CFR 50.54(p). Four of the proposed changes involving intrusion detection, access control, vehicle escorting and closed circuit television monitoring will require further review by the Regional Security Staff with members of the Nuclear Materials Safety and Safeguards (NMSS), Division of Safeguards. These discussions are necessary to ascertain whether the four changes meet the criterion for submittal pursuant to 10 CFR 50.54(p).

Upon conclusion of the detailed presentation by the licensee, which addressed safeguards information, the Regional staff advised the licensee to delay official submittal of the four areas of concern until notified by the Region of the NMSS, Division of Safeguards position on whether the changes are appropriate for submittal per 10 CFR 50.54(p) or require amendment to the plant operating license per 10 CFR 50.90.
