Gentlemen:

VIRGINIA ELECTRIC AND POWER COMPANY
NORTH ANNA POWER STATION UNIT NOS. 1 AND 2
INDIVIDUAL PLANT EXAMINATION
REQUEST FOR ADDITIONAL INFORMATION

On December 22, 1994, the NRC issued a Request for Additional Information (RAI) to complete its review of the North Anna Units 1 and 2 Individual Plant Examination (IPE) report submitted to NRC on December 14, 1992. The NRC requested that a response be provided within 60 days of receipt (i.e., by February 28, 1995). Our review of the RAI indicates that the requested information is extensive and that preparing the information will require additional time. Therefore, based on a February 2, 1995 phone call between the NRC North Anna Project Manager, Mr. L. Engle, and Mr. J. Hegner of my staff, it was agreed that the requested information would be submitted no later than April 28, 1995.

If you have any questions, please contact us.

Very truly yours,

James P. O'Hanlon
