LASALLE COUNTY NUCLEAR GENERATING STATION
N.P.D.E.S. PERMIT NO: IL0048151
NONCOMPLIANCE REPORT

DISCHARGE NUMBER AND DESCRIPTION: 001c Wastewater Treatment Facility Effluent

PARAMETER AND PERMIT LIMIT: Total Suspended Solids, 15 mg/l

NONCOMPLIANCE, DATE, AND DURATION: 31 mg/l Total Suspended Solids, 23 Aug 83, Unknown

CAUSE OF NONCOMPLIANCE: The equalization tank mixer which had not been run for several months was allowed to run prior to collection of the composite sample on 23 Aug 83. This suspended the solids that had settled in the bottom of the tank during the time the mixer had not run and caused the total suspended solids concentration to exceed the 15 mg/l NPDES permit limit.

CORRECTIVE ACTION: The equalization tank mixer was shut off. Use of the mixer will be closely monitored in the future. The wastewater treatment facility effluent total suspended solids concentration was back within the NPDES permit limit by 25 Aug 83.

DATE RECOGNIZED AS A VIOLATION:

24 Aug 83

DATE INVESTIGATED:
