SUBJECT: ACCEPTANCE OF CHANGES TO THE OPERATIONAL QUALITY ASSURANCE PROGRAM
FOR WATERFORD 3 STEAM ELECTRIC STATION QUALITY ASSURANCE MANUAL
UPDATE

We have reviewed the annual update of the Waterford 3 Steam Electric Station Quality Assurance Manual, up to and including Revision 7, submitted by your Letter W3F1-94-0181, dated October 21, 1994. It is required by 10 CFR 50.54(a)(3) that changes to the quality assurance program description that reduce commitments must be submitted to the NRC for approval prior to implementation. It is further required by 10 CFR 50.54(a)(3)(ii) that your submittal must be accompanied by a forwarding letter that identifies the change and the basis for concluding that the revised program continues to satisfy 10 CFR 50, Appendix B. You did not identify any reduction in previous commitments to the NRC in your submittal. Our review of your updated quality assurance manual did not identify any reduced commitments. The revised quality assurance manual continues to meet the requirements of 10 CFR 50, Appendix B. Therefore, the changes are acceptable.

Any questions you may have concerning this review should be directed to Mr. William P. Ang of my staff at (510)975-0310.

Sincerely,

Thomas P. Gwynn, Director
Division of Reactor Safety
