PROMPT NOTIFICATION - GASEOUS RELEASE

Dear Mr. O'Reilly:

In accordance with Section 6.9.2 of the Technical Specifications for H. B. Robinson Steam Electric Plant, Unit No. 2, the following event is reported.

At approximately 1800 hours on September 16, 1983, it was determined that the Technical Specification instantaneous release limit for radioiodine was exceeded during that afternoon. Investigation of this event is continuing in an effort to determine the source of the radioiodine. No additional releases, greater than the normally expected levels, have occurred.

This event was reported on the evening of September 16, 1983, to the NRC, Region II, and Mr. G. P. Beatty, Jr., Manager - Robinson Nuclear Project Department.

Very truly yours,

*R. E. Morgan*
