Subject: LaSalle County Station Units 1 & 2
LaSalle County Station Security Plan
NRC Docket Nos. 50-373 and 50-374

Dear Sir:

Enclosed are six (6) copies of Revision 15 of the LaSalle County Nuclear Station Security Plan.

This revision reflects the changes made at the station to reconfigure the Vital Island. Reference to the doors and barriers previously required to separate the reactors during Unit 2 construction has been deleted from the Plan and a new Vital Island boundary has been described.

Revision 15 eliminates the need for the exemptions requested April 1, 1982 in a letter from L. DelGeorge to H. Denton. These exemptions had been granted by License Condition 2.C.27 of NPF-11.

These changes do not degrade security and so are submitted pursuant to 10 CFR 50.54(p).

These enclosures contain Safeguards Information which must be protected from public disclosure pursuant to 10 CFR 73.21.

Sincerely,

Dennis L. Farrar
Director of Nuclear Licensing
