Texas Utilities Electric Company  
ATTN: R. J. Gary, Executive Vice  
President & General Manager  
2001 Bryan Tower  
Dallas, Texas 75201

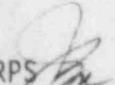

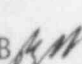

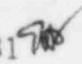

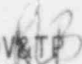

Gentlemen:

This refers to the inspection conducted by Mr. R. Wise and Dr. J. B. Nicholas of this office during the period December 19-22, 1983, of activities authorized by NRC Construction Permit CPPR-126, for Comanche Peak Steam Electric Station, and to the discussion of our findings with Mr. R. A. Jones and other members of your staff at the conclusion of the inspection.

Areas examined during this preoperational inspection of your chemistry/radiochemistry program included outstanding open items in the following functional areas: organization, staffing, staff qualifications, training program, secondary chemistry program, secondary chemistry sampling system, controls of effluent releases, audits and review of chemistry/radiochemistry activities, and administrative and departmental procedures. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter, and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
