UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

March 2, 1995

Dr. Steven S. Koblik, President
Reed College
3203 SE Woodstock Blvd.
Portland, Oregon 97202

Dear Dr. Koblik:

In a telephone conversation between Mr. Paul Doyle and Mr. Stephen Frantz, arrangements were made for the administration of operator licensing examinations at the Reed College reactor. The written and operating examinations are scheduled for the week of May 1, 1995.

In order for us to meet this schedule, we will use one set of the reference material which you sent us for the examination administered the week of January 23, 1995. Please send any updates to the material to:

ATTN: Paul Doyle, Mail Stop O-10 D-22
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

You are responsible for providing adequate space and accommodations in order to properly conduct the written examinations. Enclosure 2, "Administration of Written Examinations," describes our process for conducting these examinations.

Enclosure 3 contains the Rules and Guidelines that will be in effect during the administration of the written examination. Please ensure that all applicants are aware of these rules.

Your review of the written examination will be conducted in accordance with the procedures specified in Enclosure 4, "Facility Review of Written Examinations."

Preliminary reactor operator and senior reactor operator license applications should be submitted at least 30 days before the first examination dates so that we will be able to review the training and experience of the candidates, process the medical certifications, and prepare final examiner assignments after applicant eligibility has been determined. Final signed applications certifying that all training has been completed must be submitted at least 14 days before the examination date in order to process the license application. If our review cannot be completed in time to make a determination of applicant eligibility, the candidate may not be permitted to sit for the examination. Therefore, it is recommended that license applications be provided as soon as possible to ensure an appropriate level of review.
