Docket No. 50-301

Wisconsin Electric Power Company
 ATTN: Mr. C. W. Fay
 Vice President - Nuclear Power
 231 West Michigan Street
 Milwaukee, Wisconsin 53201

Gentlemen:

We have received a copy of your application dated September 8, 1983, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application proposed certain Technical Specification changes relating to Limiting Conditions for Operation for component cooling heat exchangers to permit performance of a special 10-year inspection and maintenance program for the Point Beach Nuclear Plant Unit No. 2. A Class II fee (\$1,200) was remitted with your application pursuant to 10 CFR 170.22.

Based on information provided by the ONRR staff as the result of their preliminary review of your application, it has been determined that a Class III fee (\$4,000) is appropriate since the review will involve consideration of a single safety issue. Therefore, you are requested to remit the additional sum of \$2,800 to this office. If the ONRR staff's final review of your application reveals that this fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by
