U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Attn: Document Control Desk

Subject: Braidwood Nuclear Power Station Units 1 and 2  
Response to Notice of Violation  
Inspection Report Nos. 50-456/94023; 457/94023  
NRC Docket Numbers 50-456 and 50-457

References: R. J. Caniano letter to K. Kaup dated  
January 18, 1995, transmitting  
NRC Inspection Report  
50-456/94023; 50-457/94023

Enclosed is Commonwealth Edison Company's (ComEd) response to the Notice of Violation (NOV) which was transmitted with the letter and Inspection Report identified in the reference above. The NOV cited two Severity Level IV violations requiring a written response. The referenced letter also requested a discussion of the bases for development of our allowed response time as well as a justification of our ability to interpose responders within the allowed response time. ComEd's response is provided in the attachments.

If your staff has any questions or comments concerning this letter, please refer them to Barry McCue, Braidwood Support Services Director, at (815) 458-2801, extension 2214.
