CERTIFIED MAIL  
RETURN RECEIPT REQUESTED

Mr. Jack Hind  
U.S. Nuclear Regulatory Commission  
Region III  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Re: License STA-583

Dear Mr. Hind:

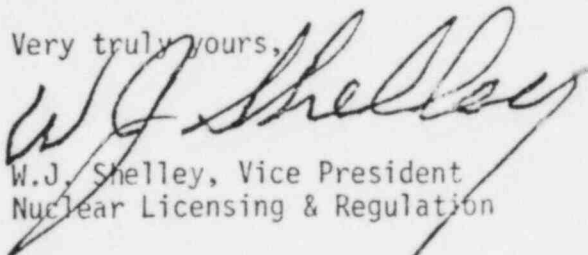

As we have discussed on the telephone, Mr. Scott C. Munson, who is Manager of Quality Assurance at Kerr-McGee Chemical Corporation's West Chicago facility, has accepted a position with Kerr-McGee Corporation in the Department of Nuclear Licensing and Regulation effective October 1, 1983. He is replacing the incumbent, who has agreed to fill a position in Kerr-McGee Nuclear Corporation's Marketing Department.

Scott will be in Oklahoma City the week of October 3rd, seeking satisfactory housing. He will be in West Chicago during the week of October 10 to participate in the initial clean burn of the incinerator. From October 17 until his family is relocated, he will spend approximately two days every two weeks in West Chicago continuing his Quality Assurance duties.

Mr. Mark Krippel will replace Scott as Health Physicist. In his new position, Scott will continue to work on West Chicago problems to the extent of approximately 50% of his time.

Kerr-McGee believes these changes will in no way reduce the level of effectiveness of the work at the West Chicago site.

Very truly yours,

  
W.J. Shelley, Vice President  
Nuclear Licensing & Regulation
