Gentlemen:

SUBJECT: MEETING SUMMARY - DOCKET NOS. 50-424 AND 50-425

This refers to the management meeting conducted, at your request, at the Vogtle project site on February 2, 1984. This meeting was held to brief NRC on the quality assurance measures being taken by Georgia Power Company to improve subcontractor performance.

It is our opinion that this meeting was beneficial and has provided a comprehensive overview of your Quality Assurance activities in this area.

I also appreciated the excellent site tour that was provided by your staff and the opportunity to attend your February 3, 1984 Project Management Board Meeting.

In accordance with Section 2.790 of NRC's "Rules of Practice", Title 10, Code of Federal Regulations, a copy of this letter will be placed in the NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them.

Sincerely,

James P. O'Reilly
Regional Administrator
