ORDER

On February 14, 1984, the joint intervenors filed a motion to augment or again reopen the record of the Diablo Canyon proceeding citing, inter alia, recent allegations of design quality assurance failures. In the motion, the joint intervenors incorporate by reference a transcript of a January 25, 1984 private meeting between the staff and Charles Stokes which they assert relates to the quality assurance allegations. The staff has not served copies of the transcript on any of the parties in order to protect the identities of certain individuals named in the transcript. We held a conference call on February 22 with counsel for the joint intervenors, Governor Deukmejian, the applicant and the NRC staff to resolve the question of the parties' access to the transcript. During the conference call,

counsel for the NRC staff indicated that deletion from the transcript of the identities of confidential sources, and information which would tend to reveal such identities, was underway and would be completed by February 23.

Therefore, the NRC staff shall serve copies of the expurgated transcript by express mail on all parties so that the document is in the hands of the other parties by February 24. If the joint intervenors wish to file a supplement to their motion because of information contained in the transcript, it shall be in our hands and the hands of the other parties by March 2. Finally, the responses of the applicant, the Governor and the staff to the motion shall be in our hands and the hands of the other parties by March 6.

It is so ORDERED.
