

OCT 14 1983

Docket No. 50-346

Toledo Edison Company
ATTN: Mr. Richard P. Crouse
Vice President
Nuclear
Edison Plaza
300 Madison Avenue
Toledo, OH 43652

Gentlemen:

This letter is to clarify the NRC position concerning procedures for admitting NRC personnel to your facilities.

The NRC inspectors, identified by the Chief, Materials and Safeguards Branch, Region III, in Enclosure 1 are likely to visit your facilities, on an announced or unannounced basis at any time, day or night, and are required to be provided permanent non-employee, no-escort required picture badges as authorized by 10 CFR 73.55(d)(5). Consistent with normal escort requirements, individuals on this roster are authorized to serve as escorts for other NRC personnel, consultants, and contractors. These individuals will require access to areas within the plant known as vital areas, and shall be afforded access to those areas consistent with the requirements of your local procedures.

Region III personnel listed in Enclosure 2 may visit your facilities on an announced or unannounced basis at any time, day or night. After they have presented official identification Form NRC-490), they are to be processed into your facility in the same manner as a non-regular employee. Such personnel are to be badged for unescorted access to the protected area only. These individuals may require access to vital areas, but should be escorted. They shall be afforded access to the site without any delays other than those normally involved with entrance search, personal identification, and registration.

Other NRC Region III personnel, not accompanied by an individual indicated in either Enclosure 1 or 2 should be provided access in accordance with your local access control procedures or after telephonic verification of authorization has been effected with the Region III Duty Officer or Safeguards Section.

This certifies that the individuals listed in the enclosures are employees of the U.S. Nuclear Regulatory Commission. To our knowledge, they do not possess adverse character traits or indications of aberrant behavior. They have been screened to the national level (including a criminal records check); no disqualifying offenses were noted. Trustworthiness has been determined by a review of their employment records.

TECH
11

OCT 14 1983

We request that in accordance with your local procedures, any site specific orientation relevant to issuance of badges, escort duties, security briefings and emergency evaluations be afforded those personnel listed in Enclosures 1 and 2.

The enclosures to this letter are effective upon receipt. Subsequent reconfirmation and update of Enclosures 1 and 2 will be provided every six months by this office. The enclosures may be updated by telephone as necessary by Region III.

We will gladly discuss any questions you have concerning this letter or the Enclosures.

Sincerely,

W. L. Axelson, Chief
Materials and Safeguards Branch

ACCESS LIST

Site: Davis Besse

Date: OCT 14 1983

This certifies that the persons listed below are employees of the U.S. Nuclear Regulatory Commission. To our knowledge, these persons do not possess adverse character traits or indications of aberrant behavior. These employees have been screened to the national level (including a criminal records check); no disqualifying offenses were noted. Trustworthiness has been determined by a review of their employment records. Based on the above, I recommend that these employees be granted unescorted access to protected and type I and type II vital areas of your facility.

A "Q" access authorization is based on a satisfactory full-field investigation conducted by the Office of Personnel Management (OPM), the Federal Bureau of Investigation (FBI), or another U.S. Government agency which conducts personnel security investigations. An "L" access authorization is based on a satisfactory National Agency Check (NAC) conducted by the Office of Personnel Management.

ACCESS LIST

Site: Davis Besse

Date: OCT 14 1993

This certifies that the persons listed below are employees of the U.S. Nuclear Regulatory Commission. To our knowledge, these persons do not possess adverse character traits or indications of aberrant behavior. These employees have been screened to the national level (including a criminal records check); no disqualifying offenses were noted. Trustworthiness has been determined by a review of their employment records. Based on the above, I recommend that these employees be granted unescorted access to protected areas of your facility.

A "Q" access authorization is based on a satisfactory full-field investigation conducted by the Office of Personnel Management (OPM), the Federal Bureau of Investigation (FBI), or another U.S. Government agency which conducts personnel security investigations. An "L" access authorization is based on a satisfactory National Agency Check (NAC) conducted by the Office of Personnel Management.
