IN RESPONSE REFER  
TO FOIA-83-305

Dear Mr. Voigt:

This is in further response to your June 6, 1983 letter, requesting documents pertaining to the Technical Specifications problems that apply to reactor coolant system leakage determinations in pressurized water reactors.

The documents listed on Appendix A are being placed in the NRC Public Document Room in folder FOIA-83-305 under your name.

The search for additional documents pertaining to your request is continuing. When we have completed our search, you will be notified of our determination.

Sincerely,

A handwritten signature in dark ink, appearing to read "J. M. Felton", is written over the typed name and title.

J. M. Felton, Director  
Division of Rules and Records  
Office of Administration

Re: Freedom of Information Act  
Request -- Expedition Requested

Dear Madam or Sir:

Pursuant to the Freedom of Information Act and 10 C.F.R. § 9.8 (1982), I hereby request a copy of all documents in the Commission's possession that pertain specifically to problems with the Technical Specifications that apply to reactor coolant system leakage determinations in pressurized water reactors. I understand that such problems may, in the view of some members of the Commission's Staff, involve both the feasibility of the limits concerning unidentified leakage, the lack of accuracy and reliability of plant instrumentation, or both.

I hereby authorize the Commission to bill me for up to \$100.00 in charges for copying of records in connection with this request.

Because this matter pertains to an ongoing Federal grand jury proceeding, which Chairman Palladino has requested be concluded expeditiously, I hereby request expedited consideration of this request. Should the Commission have any questions about this request, you may contact me or Michael McBride by telephone.

Very truly yours,

Harry H. Voigt

Dupe of
