Re: Clinch River Breeder Reactor
Plant (Docket No. 50-537)

Gentlemen:

I have been advised that the February 27, 1984 letter from Francis X Gavigan, DOE, to Mr. Thomas King, NRC, which transmitted the CRBRP redress plan to the NRC Staff for review and which was served upon the Board and all present and former parties, omitted page 15 of the redress plan. Enclosed herewith is a copy of the missing page 15.

Sincerely,

George L. Edgar
Attorney for Project Management
Corporation

land will be included as an integral part of the forestry management program conducted by the DOE in this area. Seedlings will be planted as a part of that forestry management program.

Redress activities would be scheduled to commence after the spring of 1985. Before commencement and during redress, all applicable environmental controls will be maintained (see sections 3.2 and 3.3). If prior to commencement industrial uses for the site are identified and committed which are consistent with the longstanding development plan for the site, then redress would be affected in accordance with this plan on those areas of the site not committed to industrial use. This plan will assure that the environment of the site is protected, consistent with preserving its previously dedicated potential for industrial use.
