OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

SERVED OCT 25 1983

Judge John Frye,

As a UCLA student and a citizen of the West Los Angeles- Santa Monica area, I am deeply opposed to the relicensing of the nuclear reactor on campus.

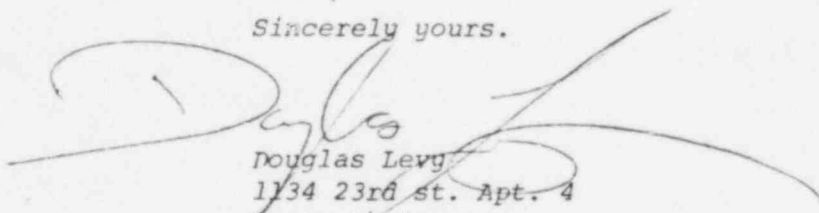

I have become aware of the many flagrant and reckless safety violations surrounding the reactor and the fact that this is an unnecessary risk.

There is clearly no need for a reactor on campus and I believe it would be in the school's and the public's interest to shut the reactor down permanently.

There are too many safety violations to be listed here. I would hope that you would acquaint yourself with these issues before ruling on the reactor.

Please bear all these factors in mind and decline relicensing and remove this public safety menace from the public. Thank you.

Sincerely yours.
