Re: License Amendment, Stipulation #15  
Docket #40-8783  
License #SUA-1401

Dear Mr. Linehan:

Enclosed are ten (10) copies of the License Amendment as required ninety (90) days prior to the start of the restoration phase of the Ruth ISL R & D project.

As was discussed in your office at our last visit, UUS has proposed a reduced well number for the stabilization monitoring period.

Our project is now in the last phase of our test period. If we can obtain your approval on this amendment within the 90-day review period, then we will remain on schedule for this year.

Should any of your staff have any questions, or if we need to supply you with more information, please feel free to contact either myself or Mr. George Hartman, Operations Manager, at any time.

Sincerely,

URANERZ U.S.A., INC.
