In the Matter of
Georgia Power Company, et al.
(Vogtle Electric Generating Station, Units 1 and 2)
Docket Nos: 50-424-OLA-3 and 50-425-OLA-3

Dear Board Members:

In a letter, dated May 13, 1994, the Staff identified the witnesses that the Staff then believed would sponsor the Staff's position with respect to the diesel generator issue in the above-captioned proceeding. This letter is to inform the Board and parties that the Staff will also present a management panel consisting of Roy P. Zimmerman, Associate Director for Projects, Office of Nuclear Reactor Regulation, and Luis A. Reyes, Deputy Regional Administrator, Region II. Their testimony will address the character and integrity of the corporations involved as it relates to the admitted contention regarding proposed transfer.

Sincerely,

Mitzi A. Young
