Dear Sir:

Three Mile Island Nuclear Station, Unit I (TMI-1)  
Operating License No. DPR-50  
Docket No. 50-289  
Training Observation

As discussed between you and Dr. R. L. Long on December 2, 1983, GPUN has continued to monitor DD's performance and has determined that DD's teaching ability, attitude and willingness to cooperate has been satisfactory. DD no longer holds an operating license and does not train operating license holders or trainees.

GPUN regularly monitors DD's performance and his work assignments are consistent with that performance. In 1983 the following monitorings were performed:
