Date

Meeting Summary:

Meeting Conducted September 8, 1983 (Report 50-445/83-37; 50-446/83-19)

Areas Inspected: This routine, announced meeting and emergency response facility tour involved approximately 12 inspector-hours by two NRC representatives. This included: discussions with licensee management concerning the emergency preparedness appraisal, and a brief tour and inspection of emergency response facilities equipment and instrumentation to determine the applicant's state of preparation for the emergency preparedness appraisal scheduled to begin on September 26, 1983.

Results: Within the areas discussed and inspected, no violations or deviations were identified, and it was determined that the applicant had achieved an appropriate state of readiness to begin the emergency preparedness appraisal as scheduled.

1. Persons Contacted

Licensee Personnel

- \*B. T. Lancaster, Radiation Protection Engineer
- \*R. B. Wester, Emergency Planning Coordinator
  - R. Fishencord, Engineer
  - D. Kay, Engineer
- \*J. C. Kuykendall, Manager, Nuclear Operations
- \*D. W. Braswell, Engineering Superintendent

NRC Personnel

D. L. Kelley, Senior Resident Inspector

\*Denotes those attending the exit interview.

2. Summary

Following a tour and inspection of the Unit 1 control room, technical support center, operational support center, emergency operations facility, training department, various emergency equipment and instrumentation, and discussions with emergency response personnel, it was determined by the inspectors that the applicant had achieved a sufficient state of emergency preparedness to begin the appraisal, as scheduled, on September 26, 1983.

3. Exit Interview

An exit interview was held with licensee management following the meeting and tour. The NRC inspectors informed the applicant's management that the appraisal would begin as scheduled on September 26, 1983. The appraisal entrance interview was scheduled for 8:00 a.m., September 26, 1983.
