

MAR 1 1984

Docket No. 50-219

GPU Nuclear Corporation
ATTN: Mr. P. B. Fiedler
Vice President and Director
Oyster Creek Nuclear Generating Station
P. O. Box 388
Forked River, NJ 08731

Gentlemen:

Subject: Inspection at Oyster Creek 50-219/84-02

This refers to the routine safety inspection conducted by Mr. T. Dragoun of this office on January 16-20 of activities authorized by NRC License No. DPR-11 and to the discussions of our findings held by Mr. T. Dragoun with you and members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. The inspection of your radiological safety program consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, no violations were observed. However our inspectors discussed with your staff the need for formalizing and documenting the training program for radiological controls support technicians. Also discussed was completion of a review of drains having potential for unmonitored releases to the environment. Our inspectors were favorably impressed with the use of radiological containments and the radwaste operator training programs.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 10 CFR 2.790(b)(1). The telephone notification of your intent to request withholding, or any request for an extension of the 10-day period which you believe necessary, should be made to the Supervisor, Files, Mail and Records, USNRC Region I, at (215) 337-5223.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,

J

M. SHAN BAKY
Thomas T. Martin, Director
Division of Engineering and
Technical Programs
