Gentlemen:

Subject: Combined Inspection No. 50-245/83-14 and 50-336/83-18

This refers to the routine safety inspection conducted by Messrs. J. T. Shedlosky and D. R. Lipinski of this office on July 3, 1983, through August 6, 1983, at the Millstone Nuclear Power Station, Waterford, Connecticut, of activities authorized by NRC License Nos. DPR-21 and DPR-65 and to the discussions of our findings held by Mr. Shedlosky with Mr. E. J. Mroczka of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements. The violations identified during this inspection have been incorporated in the findings of a Special Inspection conducted August 8-12, 1983 (Report 50-336/83-19).

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed By:

Richard W. Starostecki, Director
Division of Project and Resident
Programs
