RE: NRC Report No. 70-1151/83-08

Dear Mr. O'Reilly:

This letter is a second supplement to the initial response made by Westinghouse on August 11, 1983 relative to the reference NRC Report.

In our response of August 11, 1983 it was noted that an item control action plan would be forthcoming to the NRC. On August 31, 1983 the action plan was submitted as a first supplement to the reference report.

In the course of their September 19-23, 1983 inspection of our facility, your Messrs. Lankford and Jones verbally requested clarifications of certain parts of the August 11 and August 31 correspondence. These clarifications are enclosed with this letter as Appendix 1.

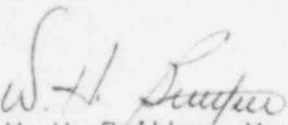

Pursuant to Section 2.790(d), Part 2, Title 10, Code of Federal Regulations, enclosed Appendix 1 should be withheld from public disclosure.

Should you have any questions or require additional information, please telephone me at (803) 776-2610.

I hereby affirm that the statements made in this response are true and correct to the best of my knowledge and belief.

Sincerely,

WESTINGHOUSE ELECTRIC CORPORATION
