Dear Dr. Hultgren:

The enclosed NRC Form 173, Standard Order for DOE Work (SOEW), for \$153,000 is submitted in accordance with Section III.B.2 of the DOE/NRC Memorandum of Understanding of February 24, 1978.

The NRC Form 173, covers additional work required under Task Area 1 "Compatibility Reviews of Agreement State Regulations." We are providing additional funding for Task Order 1 which will complete the funding for the work initiated under this Task Order. The work is to be conducted in accordance with Option 3 presented in letter from Mary Francis to Dennis Sollenberger dated November 17, 1994.

We are requesting that DOE expedite the processing of this work order so that the contractor does not need to stop work on this task. A delay of this work may delay the determinations on the compatibility of the State's radiation protection standards. We appreciate any effort on DOE's part to expedite the approval of this additional funding.

If you have any questions, please contact Brenda Hill at 301-415-2348 or Dennis Sollenberger at 301-415-2819. Thank you for your assistance.

The first two digits represent the office code (i.e., 20 for Nuclear Reactor Regulation, etc.). The third and fourth digits identify the fiscal year in which the order is issued. The last three digits are sequential numbers of the order assigned by the issuing office starting with 001 for the first order placed with DOE for that fiscal year.

### DATE

The date signed by the NRC issuing authority.

### ISSUED TO

The title of the DOE Operations Office receiving the order.

### ISSUED BY
