

APPENDIX A

NOTICE OF VIOLATION

X-Ray Inspection, Inc.
Lafayette, Louisiana 70505

Docket No. 99990001
License No. General License

As a result of the inspection conducted on June 5, 1991, and in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (Enforcement Policy) (1990), the following violations were identified:

10 CFR 150.20 provides that persons who hold a specific license from an Agreement State are granted a NRC general license to conduct the same activity in a non-agreement state provided the general licensee complies with 10 CFR Part 20 and Subpart B of 10 CFR Part 34.

- A. 10 CFR 20.203 requires, in part, that each radiation area and high radiation area be conspicuously posted with a sign or signs bearing the radiation caution symbol and the words: "CAUTION RADIATION AREA" or "CAUTION HIGH RADIATION AREA", respectively.

Contrary to the above, on June 5, 1991, the radiation area and high radiation area at a radiography field site in Bear Creek, Pennsylvania were not conspicuously posted as required. Specifically, the radiographers failed to post the radiation area and high radiation area south of the radiography field site.

This is a Severity Level IV violation. (Supplement IV)

- B. 10 CFR 34.33(c) requires that pocket dosimeters be checked at intervals not to exceed one year for correct response to radiation.

Contrary to the above, as of June 5, 1991, pocket dosimeters used at a radiography field site in Bear Creek, Pennsylvania had not been checked for correct response to radiation in over one year. The supervising radiographer stated that he had used his pocket dosimeter for eleven years and, to his knowledge, it had never been checked for correct response to radiation.

This is a Severity Level IV violation. (Supplement VI)

Pursuant to the provisions of 10 CFR 2.201, X-Ray Inspection, Inc. is hereby required to submit to this office within thirty days of the date of the letter which transmitted this Notice, a written statement or explanation in reply, including: (1) the corrective steps which have been taken and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending this response time.
